| What is your level of knowledge of register machine simulators? | | | | | | |
| 1 | 2 | 3 | 4 | 5 | | |
| None | Slight | Some | A lot | Full | | |
| | | | | | | |
| Have you used a register machine simulator? | | | | | | |
| Yes | | No | | | | |
| If yes, please state the name, and any good/bad points about the simulator: | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| Please briefly describe what a register machine simulator is: | | | | | | |
| 2 | , | | | | | |
| Yes If yes, | please si | No tate the | name, a | and any good/bad points about the simulator: | | |

What is your level of knowledge of how a CPU functions?

| Application Specific | | | | | |
|--|--|--|--|--|--|
| Do you think this application conveys the message of a register machine? | | | | | |
| Do you think the steps required to build a program are clear? | | | | | |
| Would you feel confident enough to try and build an "add" program? | | | | | |
| What do you like about this application? | | | | | |
| What do you not like about this application? | | | | | |
| What extra functionality should be incorporated into this application? | | | | | |

| What changes would you make to the current functionality? |
|---|
| What changes would you make to the current design? |
| Do you feel your knowledge of a register machine has increased? |
| Do you think this is an appropriate level for naïve users, and do you think it will increase their knowledge? |
| What would you call this application? |
| |
